III. Value proposal: our systems and processes

We continuously innovate and invest in technology and teams, **significantly reducing delivery times.**

We have focused on the development of systems and processes to provide **the most customer-focused last mile** experience **for B2C deliveries**, for big and small customers.

Our logistics services cover the entire value chain to ensure you and your customers the **peace and security** you want.

IV. Our investments

We bring your business closer to millions of consumers, using cutting-edge customer-oriented technology and applications, with unique features:

eAWB, the best application for customers, with real-time tracking functions, reports, administration and control for you to enjoy the benefits of our partnership. The platform incorporates the **'ticketing' application** dedicated to streamlining the resolution of your requests and to enhancing the efficiency of the processes.

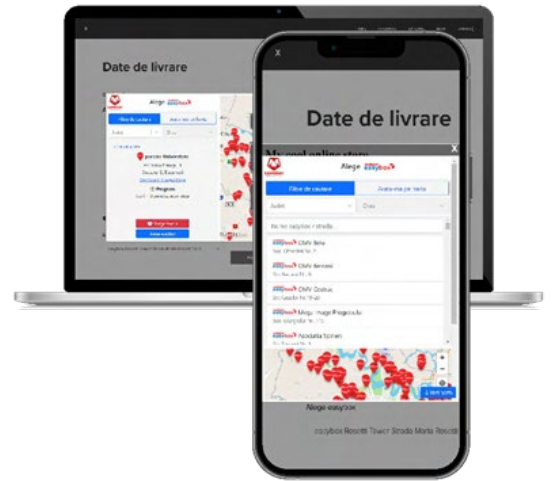

Connectors/APIs for the most frequently used e-commerce platforms, which allow you to save resources as they offer easy integration into the Sameday ecosystem.

Dedicated connector for the easy integration of easybox in the ready-made e-commerce platforms Magento, Open cart, Woocommerce, Presta shop, Shopify.

Delivery technology at the service of your business

The 3 (three) logistics centres in Bucharest, Sibiu and Budapest allow us to achieve excellent delivery times (over 95% deliveries within the estimated time), thanks to automation and constant investments in technology:

- > 40,000 packages/hour sorting capacity, only in Bucharest
- Over 150 ramps (only in Bucharest) automate and simplify the sorting process.

The **easybox** network is the most extensive “out of home” service network in Romania and the most modern “hi-tech courier service” system, which reinvents the delivery experience.

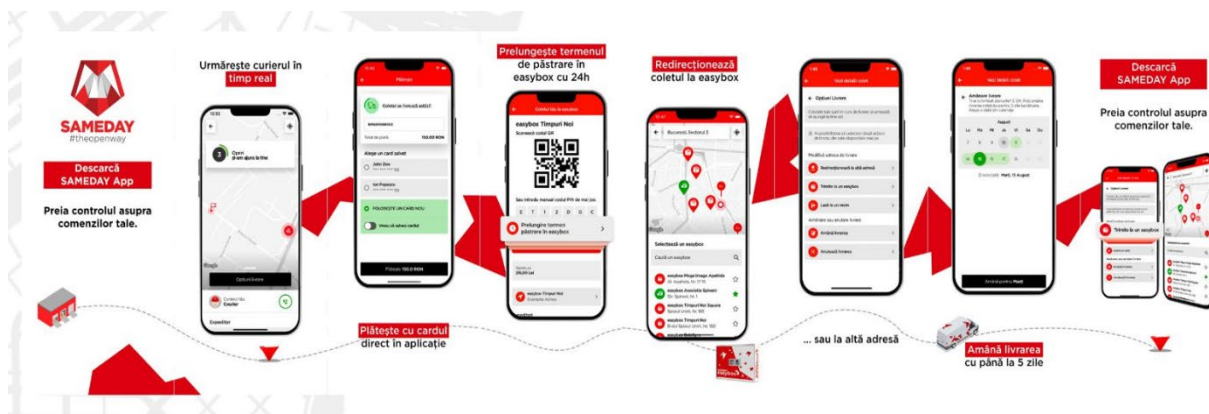

easybox is an eco-friendly pickup and delivery method, as easybox deliveries generate fewer motorised trips and reduce the carbon footprint by 95% compared to home deliveries.

We deliver with care for the environment

- We are developing an off-the-grid easybox network, aiming to make 0% carbon footprint last mile deliveries via easybox.
- We have a fleet of 0 (zero) emission vans we use for Express deliveries, managing to significantly reduce the carbon footprint.
- We are constantly renewing the Sameday car fleet to ensure that the emission regime of the approximately 3,000 vehicles impact the environment as little as possible.

SAMEDAY App

We have created for you and your customers a revolutionary delivery experience through the SAMEDAY App.

Discover the coolest features in one App!

Have you selected delivery to easybox?

When you need more time, you can extend the storage period by up to 7 days from the time the parcel is loaded into the easybox.

Are you waiting for a parcel to be delivered at home by Sameday? Use the SAMEDAY App:

- **To track your delivery in real time**

Don't worry about missing the courier when you go to the store! The SAMEDAY App will notify you with a maximum of 2 hours before the delivery to your address, and you can use the application to access the interactive map to see how many stops there are until the courier gets to your address.

- **To pay on delivery by card in the app**

If you prefer to pay for parcels on delivery, you no longer need to have cash on you when the courier arrives at the delivery address. You can pay online, directly in the application, from the moment your parcel is picked up by the courier for delivery.

- **To redirect orders in delivery to any easybox**

When your parcels, which are eligible for easybox loading, are picked up by the courier to be delivered at home, you can divert their delivery to any of approximately 5,000 easyboxes in Romania.

- **To redirect the delivery to another address**

If your plans have changed, you can divert the package to a neighbour or to another more convenient address, from the moment your package is picked up by the courier for delivery.

- **To delay the delivery**

No more fear of returned parcels when you are out of town! Postpone the delivery to the address of your choice by up to 5 (five) days in Bucharest or by up to 2 (two) days in other locations in Romania once your parcel is picked up by the courier for delivery.

Service charging. Definitions

¹**The locker delivery service** can be used for postal shipments/items weighing between 0 and 20 kg.

²**Pickup from a sender/third party** - a one-time charge, applied on top of the delivery charge for picking up postal items/shipments from third parties.

³**Additional package**: each additional package from a multiple consignment of goods.

⁴**Fuel index** - a dynamic extra charge for fuel, in accordance with the fuel price variations, applied according to the ordered service type and the postal item/shipment type, to the base cost = weight range cost / easybox specific type cost (s/m/l), additional kg cost, extra network cost, additional packages cost.

⁵**NOVS (non-oversized)** - envelope or package with a weight less than or equal to 31.5 kg.

⁶**3rd delivery attempt** - the additional delivery attempt, for a charge, requested after exhausting the free delivery attempts.

⁷**Atypical package** - it meets one of the following conditions: it requires manual reinforcement, its Girth is between 270 and 300 cm, where the Girth is defined as height + 2 x length + 2 x width (<https://sameday.ro/packaging-methods/?lang=en>)

⁸**OVS (oversized package)** - it meets one of the following conditions: package with a physical/volumetric weight above 31.5 kg and/or Girth: height + 2 x length + 2 x width > 300 cm.

⁹**NOVS Crossborder additional charge** - a one-off charge applied in addition to the standard national charges for non-oversized shipments.

¹⁰**OVS Crossborder additional charge** - a one-off charge applied in addition to the standard national charges for oversized shipments.

¹¹**Crossborder. International delivery** - charges valid for own shipments generated via the eAWB customer application or the eMAG marketplace.

The tariffs are expressed in RON, without VAT.

XI. Packaging methods. Goods prohibited and restricted for transport

The packaging methods can be found on <https://sameday.ro/packaging-methods/?lang=en>

XII. Method of resolving complaints related to postal and courier services and transport services

In any situation in which the Beneficiary wishes to file a complaint as a result of the loss (total/partial), theft, damage (total/partial) of a postal item or shipment, as well as a delay in the delivery to the destination, the complaint must be filed in writing by electronic communication means (the eAWB platform - the "Messaging" menu, the virtual chat - SAMY, the contact page on <https://sameday.ro/contact/?lang=en>) made available to the Users or to the Sameday registered office address, as follows:

In the case of the postal and courier service:

- a) Any complaint must be sent **within 6 (six) months** from the moment the postal item was picked up from the sender.
- b) The time limit for solving/closing a complaint is **90 (ninety) days** calculated from the moment of the registration thereof.
- c) The limitation period (for the bringing by the Beneficiary of a legal action) is 1 (one) year and runs from the date of pickup/delivery of the postal item by the Provider.

Sameday will not consider notifications or complaints that do not comply with these provisions or if the payment for the contracted postal/courier service has not been made to the bank account held by Sameday.

In the case of the road freight transport service:

- a) **in the case of total or partial damage to a shipment**, any notification or complaint of the Beneficiary must be brought to the attention of the Provider within 30 (thirty) days calculated from the time when the shipment was delivered to the destination.
- b) **in the case of loss or theft of a shipment**, any notification or complaint of the Beneficiary must be filed **within 30 (thirty) days** calculated from the time when the shipment was to be delivered to the destination.
- c) **in the case of late deliveries**, any notification or complaint of the Beneficiary must be filed within 21 (twenty-one) days from the time when the shipment was delivered to the destination.

Upon the registration of a notification or complaint, the Beneficiary is required to make available to the Provider all the information, the data related to the complaint, as well as a copy of the documents relating to the shipment, respectively: the road transport service order, transport document/AWB, waybill, invoice, any other documents that can prove the claimed event.

Otherwise, it is assumed that the road freight transport service was performed by the Provider correctly, and the shipment was delivered in good conditions to the destination.

Following the checks carried out, if it is proven that the Beneficiary's complaint is well-founded, the Beneficiary will be compensated by the Provider within 30 (thirty) days calculated from the date of resolution of the complaint, respectively from the time the Provider receives the compensation invoices issued by the Beneficiary for the claimed damage according to the provisions above.

The compensation is granted and remitted to the Beneficiary's bank account within 30 (thirty) days calculated from the receipt of the compensation invoices, sent by the Beneficiary in writing through the eAWB platform (the "Messaging" menu) made available to the Beneficiary by the Provider (<https://eawb.sameday.ro/login>).

If a shipment, which was declared by the Provider as lost, is found after 1 (one) year from the payment of the compensation granted by the Provider to the Beneficiary, such shipment will become the property of the Provider.

The limitation period (for the bringing by the Beneficiary of a legal action) runs:

i) in the case of loss or partial destruction, in the case of a late shipment, from the day the shipment was delivered to the destination.

ii) in the case of total loss of a shipment, from the 30th day calculated after the expiry of the delivery term related to the contracted transport service.

iii) in all the other cases, from the expiry of the term of 3 (three) months calculated from the date the Provider picked up the Beneficiary's shipment.

Sameday will not consider notifications or complaints that do not comply with these provisions or if the payment for the contracted road freight transport service has not been made to the bank account held by Sameday.
